Tokenomics

Taxes

Our tokenomics are simple, green, and straight forward:

We trust our constant buyback system and funneled stream of income and funds!

Investors and holders as main pillars of Xmas Cookies:

Our green holders will be rewarded as time passes by through a perpetual green chart and constant flow of profits.

Due to the nature of our tokenomics and money flow, we will have constant buybacks without the fear of running out of funds.

This will generate a constant stream of revenue and attract new buyers which in exchange will also generate a new stream of revenue.

Our holders are our most valuable assets, and we wish to reward them for being part of the Xmas Cookies community. We have many surprises planned along the way, as well as secret giveaways, and random rewards. All will come for those with green and steady hands.
